| | • Android Studio |

Work Experience

- | | |
|---------------------------------|---|
| 2017 KSU Hackathon runner-up | - I worked with googles latest API to develop an android app that simplified the informational data transaction between financial managers and sales representatives. |
| American Red Cross Charity | - I worked closely with a large group of people in order to raise money for the American Red Cross during the 2016 year. |
| Pizza Ordering Software Project | - The software my team developed had an integrated database that allowed a family owned business to save and access customer information from a data table and order a pizza. |
